

Mr. Clayton is the Director of Engineering, Force Capabilities Division, Business Enterprise Systems Directorate , Maxwell AFB-Gunter Annex, AL. He provides technical direction, guidance and supervision of all matters pertaining to development, fielding, and sustainment of War-fighter Operational C2 and Combat Support Information Systems in the areas of Air Force War Planning & Execution, Deployment Readiness, Logistics Planning and Management and Organizational/Force Structure Management.

He previously served as the Chief Engineer for the Logistics Legacy Division where he led a team of 17 engineers supporting over 35 programs in a geographically separated organization. There he developed a strategy for revitalization of the depot maintenance and technical data systems.

He has over 17 years IT experience with a breadth of industry experience spanning small business, national bank, and federal government. His IT background is application and database programming as well as systems support. His vision for the AF includes embracing cloud technologies, revitalizing operational systems, and smart systems engineering in the acquisition process.

He has been married to Lynette for 23 years and has 3 daughters.
